

Ravensworth CE Primary School Newsletter

Friday 22nd April 2016

Dear all,

What a difference a week can make in terms of the weather! We have enjoyed having the sunshine around us and the children have been making the most of it to enhance their learning. The tennis sessions got off to a great start on Monday. Class 1 have been out planting sunflower seeds and hunting for mini-beasts! The Year 6 children have brightened up their SATs practice by taking their booster work outside.

Class 2 made the most of the glorious sunshine during a science lesson. They were out in the school grounds looking for different types of flowers and plants. They found a number of flowers. I have chosen a selection of their images, I think you will agree that this just highlights what beautiful surroundings our school is in.

School Lunches

On Thursday we celebrated the Queen's 90th birthday. The children had a lovely 'party' school lunch. We will be looking at other events throughout the year where we can vary the school lunches.

We have also made the decision that from Monday the children will have the option of jacket potatoes and baguettes, in addition to the main menu.

Dinners/Milk and Juice

Please could I send out a polite reminder to those parents that are not up to date that payment is now due– thank you!
