

School Values

The four key values of Love, Respect, Integrity and Forgiveness join together in two ways.

Firstly, they all connect to the centre – Excellence for All. This is the essence of what we believe school should stand for – Excellence in its broadest sense, in the intellectual, moral, spiritual and developmental spheres. We believe that by consistently applying these values, excellence will be achieved.

Secondly the values are bound together in a circle of friendship. This is key. Living out all of the values keeps the circle complete and the school working together as a united community.

The final element of our values is seen in the overall shape above. It makes a cross. As a church school, we hold the ministry of Jesus as central, and believe that His example provides a pattern for living – as respectful, honest, forgiving, and loving people.

Values Overview
