Firm  
Foundations  
for the Future

**Our vision for Ravensworth School is to help children build firm foundations for the future.**

This vision starts with our values, from which all else flows - Love, Respect, Integrity and Forgiveness - working together to create an environment of excellence for all. Within that environment, we aim to help children flourish and grow as individuals, developing their personal skills, talents and characters.

As they establish their personal identities, we move to inspiring academic aspiration - a love of learning and the desire to succeed.

We believe that if pupils leave us having established these three core building blocks, then we will have achieved our goal of giving our children the foundations they need for their future.
